"I just love the Chautauqua. Yes! My heart and soul are in it."

So spoke charming Miss Johnson, one of the directors of the Chautauqua which is going to give joy, pleasure and food for thought to the Ed-

The Chautauqua as an institution has quite a story. It originated at Chautauqua Lake, in New York, and was first designed to be a place of meeting for the students of the United States universities who like to congregate together, enjoy themselves and share among them the various talents that have been bestowed upon them by a generous fairy godmother. After a while students who could

not come to Chautauqua asked the students to come and visit various universities during vacation time, so that the interchange of ideas and ideals might be furthered. From such a small beginning, which only a couple of years ago counted but a few branches of the original Chautauqua, over 600 are taking place in the States, and while there were only 45 in Canada two years ago, there are

now over 250,000, himself full of brilliant enthusiasm, feels that the Edmondton Chautauqua will leave something behind it that will never be forgotten by the people of Alberta. The Chautauqua has been a source of good music and high-class entertainment of all sorts, that Edmondton has enjoyed since the Chautauqua first came to Chicago, who cannot wait for the Chautauqua to return at their annual Chautauqs, but must have the Chautauqs every year, regardless of the season.

Patriotic work occupies a great place in the program of the Chautauqua. It is the duty of the Chautauqua artists to go forward in any kind of work that is patriotic and to do it with the same devotion and sacrifice of their time and talents take the first place. The Chautauqua artists are given a chance to go and see and hear the Chautauqs of Edmondton.
